EDUCATION

Xamk - South-Eastern Finland University of Applied Sciences ● *Information Technology: Networking*
GPA: 4/5
August 2015 - Present

WORK EXPERIENCE

Digital Future, Italy
March 2019 - May 2019

● *Web Development Intern*

- Wordpress database and management.
- I introduces SCRUM framework to the project and it helps us achieve and complete the team goals on a weekly basis. Before the project was working on a waterfall modal, tasks were done in at a very slow pace. Our product was new to the market, which requires to have adaptability, and the ability to quickly introduce new features to users in a short period of time to meet demands.

GMO-Z.com RUNSYSTEM JSC.
April 2019 - October 2019

● *React Native Developer*

- Salefie app for JACCS INTERNATIONAL VIETNAM FINANCE:
Introduced to React-Natived and quickly learn about the technology, I help deliver the app in a five man team in a month, introducing features such as loading modals, basic animations, redux for our team.
Within two week after launch I stayed to fix most bugs that our QA team found.
- Yakult app for Yakult.vn:
I handle feature request and later on bug fixes for the application.
- DMS app for Kangaroo.vn:
I introduced to my team the prototyping tool proto.io and it help us rapidly develop a prototype and have easier communication to our customer about the outcome of our product.
I met with our customer and help speed up the development of the prototyping process, before i joined the project, it was one sprint behind in term of timing since our customer cannot figure out how the product would look like before they can sign the contract.

FPT Software

● *Remote React Native Developer*

September 2019 - Now

- Mobile Developer for FPT Software Shift Management App.
